Assets

Before the condensed interim financial statements of the Company were prepared, the Board of Directors ascertained that management took reasonable steps to ensure that any current assets, which were unlikely to be realised in the ordinary course of business at their values as shown in the accounting records of the Company had been written down to amounts which they might be expected to realise.

Valuation methods

Contingent and other liabilities

At the date of this report, there does not exist:

- (a) any charge on the assets of the Company which has arisen since the end of the financial period which secures the liabilities of any other person; and
- (b) any contingent liability in respect of the Company that has arisen since the end of the financial period other than in the ordinary course of its business operations.

No contingent or other liability of the Company has become enforceable, or is likely to become enforceable within the period of 12 months after the end of the financial period which, in the opinion of the Board of Directors, will or may have a material effect on the ability of the Company to meet its obligations as and when they fall due.

Change of circumstances

At the date of this report, the Board of Directors is not aware of any circumstances, not otherwise dealt with in this report or the condensed interim financial statements of the Company, which would render any amount stated in the condensed interim financial statements misleading.

The results of the operations of the Company for the period were not, in the opinion of the Board of Directors, substantially affected by any item, transaction or event of a material and unusual nature.

There has not arisen in the interval between the end of the financial period and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Board of Directors, which affect substantially the financial performance of the Company for the current financial period in which this report is made.

INDEPENDENT AUDITOR'S REPORT ON REVIEW INTERIM FINANCIAL INFORMATION To the shareholders LOLC (Cambodia) Plc.

Introduction

We have reviewed the accompanying condensed interim financial statements of the LOLC (Cambodia) Plc. ("the Company"), which comprise the condensed interim balance sheet of the Company as at 30 June 2019, and the condensed interim income statement, the condensed interim statements of changes in equity and cash flows for the six-month period ended 30 June 2019, and other explanatory notes as set out on pages 8 to 37 (hereafter referred to as "the condensed interim financial statements").

Management is responsible for the preparation and presentation of these condensed interim financial statements in accordance with the accounting principles generally accepted in Cambodia for interim financial reporting. Our responsibility is to express a conclusion on these condensed interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the Cambodian International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Cambodian International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements as at and for the six-month period ended 30 June 2019, are not prepared, in all material respects, in accordance with the accounting principles generally accepted in Cambodia for the interim financial reporting.

Other Matter

We draw attention to the fact that we have not reviewed the condensed interim income statement and the statements of changes in equity and cash flows of the Company for the three-month period ended 30 June 2019 and 2018 and for the six-month period ended 30 June 2018, or any of the related notes and accordingly, we do not express conclusion and any form of assurance on them.

2. Basis of preparation

(a) Statement of compliance

These condensed interim financial statements have been prepared in accordance with the accounting principles generally accepted in Cambodia for interim financial reporting. Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Company's financial position and performance since the last annual financial statements as at and for the year ended 31 December 2018.

The condensed interim financial statements were approved by the Board of Directors and authorised for issue on 14 August 2019.

Notes to the condensed interim financial statements (continued) for the six-month period ended 30 June 2019

2. Basis of preparation (continued)

(b) Basis of measurement

The condensed interim financial statements have been prepared on the historical cost basis.

(c) Functional and presentation currency

The Company transacts its business and maintains its accounting records in three currencies, Khmer Riel ("KHR"), United States Dollars ("US\$") and Thai Baht ("THB"). Management have determined the KHR to be the Company's functional and presentation currency as it reflects the economic substance of the underlying events and circumstances of the Company.

Transactions in currencies other than KHR are translated into KHR at the exchange rate ruling at the dates of the transactions. Monetary assets and liabilities denominated in currencies other than KHR at the reporting date are translated into KHR at the rates of exchange ruling at that date. Exchange differences arising on translation are recognised in the condensed interim income statement.

(d) Use of estimates and judgements

The preparation of condensed interim financial statements requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of condensed interim financial statements, and the reported amounts of incomes and expenses during the reporting period. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. Although these estimates and judgements are based on the management's best knowledge of current event and actions, actual results ultimately may differ from those estimates.

The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the condensed interim financial statements are disclosed below.

(i) Impairment losses on loans to customers and balances with banks

The Company follow the mandatory loan classification and provisioning as required by the National Bank of Cambodia's Prakas No. B7-017-344 dated 1 December 2017 and Circular No. B7-018-001 Sor Ror Chor Nor dated 16 February 2018 on credit risk classification and provision on impairment for banks and financial institutions. Loans and advances, other financial products and off-balance sheet financial commitments are classified into five classifications and the regulatory allowance is made depending on the classification concerned, regardless of the assets (except cash) pledged as collateral. The Directors believe that the loan aging (by past due days) as a basis to determine the loan classification is appropriate to determine the adequacy of its impairment losses on so as to follow this Prakas.

Notes to the condensed interim financial statements (continued) for the six-month period ended 30 June 2019

2. Basis of preparation (continued)

(d) Use of estimates and judgements (continued)

(i) Impairment losses on loans to customers and balances with banks (continued)

Provision for loans are presented as reduction from loans. The table below shows the classifications and regulatory provisioning requirements:

Facility classification	Number of days past due	Allowance rate
Short-term loans (less than or equal to one ye	ear)	
Normal	Less than 15 days	1%
Special mention	15 days – 30 days	3%
Substandard	31 days – 60 days	20%
Doubtful	61 days – 90 days	50%
Loss	91 days or more	100%
Long-term loans (more than one year)		
Normal	Less than 30 days	1%
Special mention	30 days – 89 days	3%
Substandard	90 days – 179 days	20%
Doubtful	180 days – 359 days	50%
Loss	360 days or more	100%

(ii) Taxes

Taxes are calculated on the basis of current interpretation of the tax regulations. However, these regulations are subject to periodic variation and the ultimate determination of tax expenses will be made following inspection by tax authorities.

Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will have an impact on the income tax and deferred tax provisions in the period in which such determination is made.

(iii) Seniority indemnity

The present value of back pay seniority indemnity obligation depends on a number of factors that are determined by management using a number of assumptions such as turnover rates. The assumptions used in determining the net cost for back pay seniority indemnity include discount rate. The management used the average fixed deposit interest rate from other banks and MFIs as a discount rate to determine the present value of the estimated future cash outflows expected to be required to settle the back pay seniority indemnity obligation.

Notes to the condensed interim financial statements (continued) for the six-month period ended 30 June 2019

3. Significant accounting policies

The accounting policies applied in these condensed interim financial statements are the same as those applied in Company's annual financial statements as at and for the year ended 31 December 2018.

4. Translation of Khmer Riels into United States Dollars

The condensed interim financial statements are stated in the Khmer Riel. The translations of the Khmer Riel amounts into the United States Dollars are included solely for presentation purposes and have been made using the prescribed official exchange rate of US\$1: KHR4,066 published by the NBC on 30 June 2019 (30 June 2018: US\$1 to KHR4,063 and 31 December 2018: US\$1 to KHR4,018).

These convenience translations should not be construed as representations that the Khmer Riel amounts have been, could have been, or could in the future be, converted into the United States Dollars at this or any other rate of exchange.

5. Seasonality

The principal activity of the Company is mainly to provide micro-finance services (deposit-taking and lending) to the rural population, micro-enterprises and small and medium enterprises through its head office in Phnom Penh and its various branches. There is no significant seasonality factor associated with these businesses.

25. Taxation contingencies

The taxation system in Cambodia is relatively new and is characterised by numerous taxes and frequently changing legislation, which is often unclear, contradictory, and subject to interpretation. Often, differing interpretations exist among numerous taxation authorities and jurisdictions. Taxes are subject to review and investigation by a number of authorities, who are enabled by law to impose severe fines, penalties and interest charges.

These facts may create tax risks in Cambodia substantially more significant than in other countries. Management believes that it has adequately provided for tax liabilities based on its interpretation of tax legislation. However, the relevant authorities may have different interpretations and the effects could be significant.
